The following table shows the results of the experiment. The first column shows the number of trials, the second column shows the number of correct responses, and the third column shows the percentage of correct responses. The data shows that the percentage of correct responses increases as the number of trials increases, indicating that the subject is learning the task.

Number of Trials	Number of Correct Responses	Percentage of Correct Responses
1	0	0%
2	1	50%
3	2	66.7%
4	3	75%
5	4	80%
6	5	83.3%
7	6	85.7%
8	7	87.5%
9	8	88.9%
10	9	90%

The results of the experiment show that the subject is able to learn the task and improve their performance over time. The percentage of correct responses increases from 0% at the first trial to 90% at the tenth trial. This suggests that the subject is able to learn the task and improve their performance over time.
